

Dear Dr. Henney,

I am writing to express my concern over the
FDA's regulation of genetically engineered
(GE) food. I request that the agency's
current policies be changed, and that you
all the points in docket 00P-1211/CP1

☒ All GE foods should be labeled so I am
informed and have a choice.

☒ GE foods should not be assumed to be
"generally recognized as safe" and should
have mandatory pre-market safety testing
to determine the long-term impacts to
human health and the environment.

(Additional Personal Comments:)

Commissioner Jane Henney
